About

As a Senior studying Computer Science at Dynatrace University, I am in search of a full-time role after graduation in May of 2023. I am passionate about all things coding, but love working with people as well. My goal is to become a software consultant and use my technical skills while also interacting with people. My academic background, technical skills and previous internship at Dynatrace have prepared me to be successful in this field.

Experience with: SQL, Python, C++, PHP, HTML, CSS, Java, HTTP, AWS, Azure, Kubernetes

Experience

Product Specialist Intern
Dynatrace - Part-time
June 2022 - August 2022
Denver, Colorado, United States

• Perform proactive health checks of customer environments to ensure usage, adoption, and growth of Dynatrace
• Provide recommendations to customers about product enhancements
• Work on operational projects such as creating web apps and automating reports
• Support Dynatrace One and ACE Services team with projects and daily tasks, as needed

IT Help Desk
Dynatrace University - Part-time
September 2020 - Present
Denver, Colorado, United States

• Assist students in questions about hardware, logins, etc. over the phone, in-person and over chat
• Projects for IT department as needed
